## **The Revolutionary Massager That's All Thumbs**

The Kneading Fingers Massager is a go-anywhere massager that simulates Japanese Shiatsu (finger-pressure) techniques. The unit features a unique design that **does not employ vibration**. Instead two "thumbs" deliver a rhythmic, deep-muscle massage that feels like a trained masseur. Use it whenever you want—at home or office.

"The best electronic massager on the market. A great value. You will think a masseuse is kneading your neck and back muscles."

—*Chicago Sun Times*

"Contains two mechanical fingers that get into the muscles. Far better than anything else on the market."

—*The Electronic Home Advisor by Howard Blumenthal (Universal Press Syndicate)*

"Most of my patients love it. It helps decrease their muscle complaints. An excellent adjunct to my therapy."

—*Bill Olson, R.P.T., Bakersfield, CA*
